You are user 4, Jonah Yip.

Year 3, BA (Fine Arts), HKU, GPA 3.29/4.3.

You are submitting two scholarship forms.

First task

Your first task is Evidence Vault Form B with the Evidence Vault website.

That form is the Open Desk community bursary.

It emphasizes community service, hours, and career.

Use Evidence Vault with the same items and the same PDFs.

Second task

Your second task is Evidence Vault Form A with Excel and Google Drive, not the website.

That form is the Kite & Quill academic scholarship.

It emphasizes academic merit, awards, and leadership.

Your portfolio is already stored in the Google Drive folder you were given.

Do not use the website.

Evidence Vault

Evidence Vault helps students organize achievements, store supporting evidence, and reuse them for applications.

The problem is that certificates sit in the house, in old email, and in Drive, and the same details get retyped every time.

On the website you can keep each achievement with its evidence file and generate an application packet.

What to do, and the time boxes, are on the next page.

What to do

- Use only this profile. Do not add your own real achievements or personal details.
- This profile has 6 items. One item is messy on purpose. Enter it as written.
- If a question does not fit, write N/A.
- Use the same items and the same PDFs for both methods.
- Record the start time, end time, and total minutes for the first submission.
- Record the start time, end time, and total minutes for the second submission.
- After both submissions, finish the Teammate feedback survey.

Time record

Fill these boxes by hand.

Task 1

Evidence Vault Form B

Evidence Vault website. Same items and the same PDFs.

Start	End	Minutes

Task 2

Evidence Vault Form A

Excel and Google Drive, not the website

Start	End	Minutes
